

M - RATTAN CHAIR

PRODUCT DESCRIPTION

The M-Rattan Chair is a spin off from our highly successful M-Chair. Like its predecessor, it also takes design cues from the Parthenon's structural columns.

The delicately balanced proportions and tapered legs lean slightly inwards, giving the illusion of straight lines and adding lightness. This classic piece is a timeless and practical addition to any interior.

NOTES

The M-Rattan Armchair is available in a choice of colours, to complement your M-Table or space.

The wood is wire brushed to a natural satin finish. All our solid timbers and veneers are eco-certified and FSC® rated.
